M ARSLAN GUL

Senior Software Engineer | Backend Developer
Islamabad, Pakistan | +92 323 3439302 | arslangul93@hotmail.com | linkedin.com/in/arslangul93

PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience architecting, building and scaling backend systems and REST APIs across healthcare, IoT and fraud-detection platforms. Deep expertise in Node.js and PHP (Laravel, CodeIgniter) microservices and SQL/NoSQL databases, with recent focus on AI-powered features through the OpenAI API and third-party integrations. Experienced with Docker, CI/CD pipelines, Redis caching, JWT/OAuth authentication, background job queues, database indexing and query tuning, automated testing, and monitoring and logging, deploying to IIS and AWS. Known for modernizing legacy codebases, leading code reviews and shipping secure, high-performance software on tight deadlines. Twice recognized as Employee of the Year/Quarter.

TECHNICAL SKILLS

Languages & Frameworks: Node.js, Express.js, Socket.io, PHP, Laravel, CodeIgniter, JavaScript, ReactJS, HTML5, CSS3
Backend & APIs: REST API Design, Microservices Architecture, SOA, JWT, OAuth 2.0, Role-Based Access Control, Background Jobs & Queues, Redis Caching
Databases: MySQL, PostgreSQL, SQL Server, SQLite, MongoDB, Elasticsearch, Indexing & Query Optimization, Stored Procedures
DevOps & Cloud: Docker, CI/CD Pipelines, AWS, IIS, Git, GitHub, Monitoring & Logging
Testing & Quality: Unit Testing, Integration Testing, Code Review, Selenium Test Automation, Regression Testing
AI & Integrations: OpenAI API Integration, Third-Party API Integrations, AI-Powered Feature Development
CRM Platforms: SAP Marketing Cloud, Zoho CRM
Ways of Working: Agile/Scrum, Team Leadership, Mentoring, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Senior Software Engineer – Naviquis

Islamabad, Pakistan | Jul 2023 – Present

- Integrated OpenAI APIs and multiple third-party services to add AI-powered features to production applications, from proof-of-concept through deployment.
- Deployed, configured and administered web applications on IIS, managing app pools, site bindings and SSL certificates to keep production environments stable and secure.
- Architected and maintained backend APIs and business logic, optimizing performance and scalability across multiple production systems.
- Integrated Elasticsearch to improve search performance and implemented data security controls to protect sensitive information.
- Monitored system performance and partnered with cross-functional teams to ensure seamless integration with third-party applications.
- Gathered requirements and contributed to architecture design across multiple concurrent projects, building both UI and backend components.
- Maintained test coverage and led code reviews, embedding industry best practices across the engineering team.

Senior Software Engineer – Zigron Pakistan Pvt. Ltd.

Islamabad, Pakistan | Jun 2022 – Jul 2023

- Led backend development for an IoT-based home security and monitoring platform (indoor/outdoor cameras, doorbell, alarm alerts, 24/7 dashboard monitoring).
- Modernized and modularized legacy codebases to current development standards, reducing operating costs and improving system functionality.
- Built and shipped web applications using Node.js, PHP, HTML and CSS, applying REST protocols and SQL-based database technologies.
- Diagnosed and resolved complex technical issues under tight deadlines.

Software Engineer (PHP) – AT Tech Pvt. Ltd.

Islamabad, Pakistan | Oct 2021 – May 2022

- Built new modules for an online healthcare consultation application, writing server-side PHP on a microservices architecture.
- Configured and deployed REST APIs and integrated third-party APIs to extend platform functionality.
- Partnered with project managers and developers to define requirements and detailed technical specifications.
- Planned, coded and deployed web-based applications using PHP, MySQL and JavaScript.

Software Engineer – Zigron Pakistan Pvt. Ltd.
Islamabad, Pakistan | Mar 2016 – Sep 2021

- Designed and built scalable software modules powering fraud, waste and abuse detection within a healthcare claims processing platform.
- Led code reviews, provided technical guidance to peers and kept the team current with industry best practices.
- Modernized and modularized legacy codebases, reducing operating costs and improving functionality.
- Consistently delivered high-quality solutions within tight deadlines in a fast-paced environment.
- Recognized as Most Valuable Player / Employee of the Year (2019) and Employee of the Quarter (2019).

KEY PROJECTS

Portal Applet – Document Processing System | Feb 2024 – Present
Automated document processing and data extraction from PDF documents.

Gamify Pro – Gamification Rewards Engine | Feb 2024 – Present
Challenge- and rewards-based system distributing monetary and non-monetary rewards for completed challenges.

ActiveXchange – Fax Web Application | 2024 – Present
Web application for sending, receiving and managing faxes digitally.

CredentialingPro – Provider Credentialing & Claims Platform | Jul 2023 – Present
Provider credentialing, onboarding, medical claims processing and document verification system.

IYLUS Systems – IoT Home Security Platform | Jun 2022 – Jul 2023
Node.js, MySQL, MongoDB, Android and iOS platform with indoor/outdoor cameras, doorbell, alarm-based alerts and 24/7 dashboard monitoring.

Dr. IQ – NHS Patient Consultation App | Oct 2021 – May 2022
Application for NHS patients enabling online GP consultations, secure medical record access and repeat prescription ordering.

DentaLens – Healthcare Claims Fraud Detection Engine | Mar 2017 – Sep 2021
Automated healthcare claims processing engine with near real-time fraud, waste and abuse detection for dental and medical professionals.

FraudLens – Data Analytics Engine | Sep 2016 – Mar 2017
Data analytics algorithms built with MySQL stored procedures to improve data-processing efficiency.

Genband – QA & Test Automation | Feb 2016 – Sep 2016
Test case design, end-to-end and regression testing, and Selenium-based functional and non-functional test automation.

EDUCATION

MS, Software Engineering – Bahria University, Islamabad
Aug 2018 – Jan 2021

BS, Software Engineering – Bahria University, Islamabad
Sep 2011 – Jun 2015

HONORS & AWARDS

- Most Valuable Player / Employee of the Year – Zigron Pakistan Pvt. Ltd. (Nov 2019), for contribution to Team DentaLens.
- Employee of the Quarter II – Zigron Pakistan Pvt. Ltd. (May 2019), for outstanding Q2 performance.

PROFESSIONAL DEVELOPMENT

- Workshop on Frontend Development Frameworks – S&P Global, Islamabad (Apr 2018): comparative overview of React and Angular.
- Workshop on Test Automation for REST APIs – Zigron Pakistan Pvt. Ltd. (Mar 2016).

VOLUNTEERING

Core Organizer, Zigron Cricket Fiesta
Islamabad, Pakistan | Jan 2017 – Present

- Core organizing member for one of the largest IT-industry cricket tournaments in Rawalpindi/Islamabad; managed match scheduling and coordinated with participating teams.
